

Banking

"IBM's best-in-class cognitive security portfolio will help us pre-empt threats and mitigate risk, supporting our position as a leading Digital Bank."

-Rohan Muttiah, Chief Operating Officer, Cargills Bank

Business challenge

Cargills Bank wanted to enhance its existing defensive cyber security capabilities, improve monitoring and implement stronger preventive protocols to guard against sophisticated threats.

Transformation

With the Financial Services industry being targeted the most by cyber criminals, Cargills Bank has taken a proactive approach to better safeguard customers by deploying a cognitive security solution, IBM Watson® for Cyber Security. Now Cargills Bank analysts can readily compare external information from multiple sources with internal threat data and gain actionable insights for making decisions quickly.

Rohan Muttiah Chief Operating Officer, Cargills Bank

Business benefits

Speeds

The process of detecting and accurately identifying cyber threats and alerts

Guards

Against sophisticated threat incidents with stronger preventive protocols

Transforms

Millions of security documents into actionable intelligence relevant to specific threats

Cargills Bank Ltd.

Cargills Bank pioneers the use of cognitive security in Sri Lanka

Cargills Bank Ltd. is a licensed commercial bank based in Sri Lanka. Cargills is a brand that has been faithfully serving Sri Lankans for 174 years, built on a foundation of values and ethics. True to this heritage and the ethos of "Banking on the Human Spirit," Cargills Bank is taking banking to the masses by being inclusive and accessible with offers such as the Cargills Cash Savings Account, available at over 340 Cargills Food City outlets, and the Cargills Bank Debit Card.

Solution components
